

PROFESSIONAL SUMMARY

Final-year B.Tech Computer Science student with hands-on experience in software development, backend/API integration, databases, testing, and cloud-based application delivery. Strong foundation in Java, C++, JavaScript, Python, REST APIs, SQL, SDLC, and problem solving, with experience building and integrating production-style web applications and automated deployment workflows.

EDUCATION

- Sarala Birla University**
Bachelor of Technology – Computer Science Engineering CGPA: 8.57/10
- Ranchi, Jharkhand, India
July 2023 – June 2027 (Expected)

TECHNICAL SKILLS

- Programming:** Java, C++, Python, JavaScript, SQL
- Software Development:** React.js, Next.js, Node.js, Express.js, REST APIs, JWT, RBAC,
- Databases:** MongoDB, PostgreSQL, MySQL, Redis
- Software Engineering:** Data Structures & Algorithms, OOP, SDLC, Unit Testing, Debugging, API Testing, Technical Documentation, Git-based Workflows
- Cloud & DevOps:** AWS, Docker, Kubernetes, Jenkins, GitHub Actions, Terraform, Ansible, Linux, CI/CD
- Tools:** Git, GitHub, Postman, SonarQube, Nexus Repository, Prometheus, Grafana

EXPERIENCE

- Unwrite Studio**
Web Developer Intern
- Hybrid
Nov 2025 – Jan 2026
- Software Development:** Developed and deployed responsive web application features using Next.js and Supabase for customer-facing e-commerce applications.
 - Coding & Integration:** Implemented authentication, product workflows, API integrations, and database operations while maintaining clean, modular code.
 - Testing & Debugging:** Debugged application issues, validated API behavior, and improved data-fetching workflows for reliability and responsiveness.
 - Engineering Practices:** Used Git-based workflows, issue tracking, code reviews, and iterative development in an Agile environment.

SOFTWARE ENGINEERING PROJECTS

- GroceCart – Full-Stack Software Application**  : Built and deployed a full-stack grocery delivery platform with modular frontend and backend components, REST APIs, JWT/RBAC authentication, and MongoDB data persistence. Developed product, cart, order, and user workflows; integrated real-time order tracking using Socket.io and structured backend services for maintainability and reuse. Implemented automated build, testing, code-quality analysis, containerization, and deployment workflows using GitHub Actions, Jenkins, Docker, and AWS. Documented APIs, deployment configuration, and system components to support testing, troubleshooting, maintenance, and future enhancements. **Tech Stack:** JavaScript, React, Node.js, Express.js, MongoDB, REST APIs, JWT, RBAC, Socket.io, Docker, Jenkins, GitHub Actions, AWS
- College Discovery Platform**  : Developed a web platform for discovering and comparing colleges with search, filters, pagination, comparison, predictor, Q&A, and authentication features. Designed reusable application components, integrated REST APIs and database operations, and implemented end-to-end user workflows with emphasis on usability and maintainability. **Tech Stack:** React, Node.js, Express.js, MongoDB, REST APIs, JavaScript
- GramSwasthya AI – Rural Healthcare Intelligence Platform**  : Built an AI-powered rural healthcare platform with a React dashboard to analyze NFHS/RHS health and infrastructure data, identify healthcare gaps, and support data-driven resource prioritization. Integrated Random Forest, Isolation Forest, and K-Means models through a Python FastAPI inference service, with Node.js/Express APIs for district risk prediction, anomaly detection, state capacity segmentation, and village-level healthcare analysis. Implemented REST APIs, caching, health checks, error handling, and explainable risk factors; validated ML inference using real NFHS data across multiple districts. **Tech Stack:** React, Vite, Tailwind CSS, Node.js, Express.js, Python, FastAPI, Scikit-learn, Pandas, MongoDB, REST APIs, NFHS/RHS Data

ACHIEVEMENTS

- Won the **IBM National Hackathon** by developing and presenting an innovative technology solution.
- Reached **Round 2 of Flipkart GRID 8.0** after clearing the initial screening rounds.
- Cleared **Round 1 of the Adobe University Hackathon 2026** and advanced to the next stage.

CODING PROFILES

- LeetCode:** leetcode.com/amansingh12073 900+ Problems Solved
- Codeforces:** codeforces.com/profile/amansingh12073
